## Annual Meeting of the Mechanics' Association.

The annual meeting of the Mechanics' Association, for the choice of officers, takes place at their hall this evening, on which occasion the reports of the several departments will be read, showing the operations of the last year

In alluding to the Association, we are reminded of a letter which recently appeared in the Lowell Courier, and which thus speaks of this society —

"I have attended two lectures delivered before the Mechanics' Association here in their 'own hired hall' This institution was organized some twenty years since and has been mainly devoted to intellectual pursuits Their meetings are held regularly one evening a week On one evening they have a lecture often delivered by a member but the best lecturers in the city often lecture, then they have a meeting for debate, and once a month they devote one evening to the reading of common quotations dropped into a box prepared for that purpose The I am told is always one of the most interesting exercises before the society The writers are unknown and every one writes to suit himself Many of these articles are afterwards published and possess much value

The hall in which the meetings are held is well furnished for the accommodation of some three hundred persons It has a large and elegant chandelier with six massive bronzes suspended from the centre of the ceiling—a convenient and well lighted rostrum or pulpit like desk for the president and for the lecturer—also a desk for the secretary and another for the librarian One entire side of the hall is filled with glass cases in which are a library of about one thousand volumes, a large collection of geological specimens another of shells another of insects and another of curiosities The ceiling of the hall around the base of the arch, is extremely ornamented with a large number of mouse and bats hearts—while the walls are hung with all sorts of specimens of implements used in savage life and of a great number of curiosities in nature and art They have here, too, an ante room the first printing press ever used upon the Penobscot river also an old tavern chair which was in use in Boston at the time of the destruction of the Tea, presented to the society by a granddaughter of the owner Miss Hales The hall indeed is quite a resource and much interest is felt in the increase of all their departments Every mechanic in the city may avail himself of all the advantages of this institution by the payment of two dollars a year and leading a sober and moral life

This fact tells may justly be considered like Mechanics' college Here every member is encouraged to educate himself and to aid in the education of others By means of the institution the mechanics here have made great progress in mutual pleasure and have prepared themselves for exerting a good influence in the community and for taking an active part in all that may secure the welfare of the city Of course an institution like this is heartily cherished and loved by not a few while it commands the respect confidence and esteem of the whole community It is indeed considered as one of the permanent institutions of the city which on no account can be dispensed with"

## Juvenile Floral Concert.

A large and interesting Juvenile Singing School, taught by Mr Hopkins, will give their second, and probably the final Floral Concert at Market Hall, this evening We refer to the advertisement in another column for a list of the pieces to be sung, and would refer to the numerous auditors who last week attended the first concert, for the elegant manner in which the whole will be executed

The last concert was indeed rich in the display of a floral procession of nearly two hundred girls—rich in the sweet songs which they sang and in the grace and propriety which characterized all the proceedings

We, commend the concert this evening to all our citizens, as being really worthy their attention and time and encouragement We trust there will be a full hall, with few free tickets

LEVANT, Jan 11th, 1848

Mr Editor —

As a chronicler of passing events, you no doubt, will with pleasure notice some "matters and things touching the cause of cause of Temperance in this town Levant, for years, has taken strong ground against the "de il man — At the last Spring town meeting, the Licensing Board, were instructed to prosecute all violators of the present license law Things have been making for some time for an attack upon those who, against the express wishes of the town, would sell

Complaints were made against several gentlemen, and the examination commenced One of them had the courage to meet One came forward and settled with our understanding that he would violate the law no more One has not as yet been [illegible] and others, no doubt, will soon be apprised if he does not surrender In view of these circumstances, it may be reckoned as certain, if persuasion or law can drive these offenders from their unlawful and unholy traffic, it will be done as far as Levant is concerned

The Licensing Board have won to themselves a respect and honor that will not soon fade, in thus attending to their duty If all such officers in the various towns in this county, would do their duty promptly and faithfully, few of these offenders would dare insult the law and the communities in which they dwell

Temperance in Levant is an abiding, living principle—not on the wane—but advancing Two Divisions of the Sons of Temperance exist, which are exerting and no doubt, will continue to exert a healthy influence in this town Other towns in the county are awaking up to this subject, and it is hoped that this wicked campaign will result in lasting good

## John James Audubon.

Mr Editor—

I noticed an anecdote of Mr Audubon in the last Courier in which he was represented as having arrived at Cincinnati very poor, where he begged horse-hair of negroes of which he made rings to sell The accuracy of that statement I am inclined to doubt, not that I have a personal acquaintance with Mr Audubon, or any knowledge of his history except such as may be gathered from the numerous anecdotes and narratives interspersed throughout his "Ornithological Biography" but from them I had conceived the impression that although he encountered many difficulties, the dark poverty referred to in the paragraph alluded to, was not one of them.

His father if we may judge from the casual remarks of the son, was a man of wealth, and John James was brought up in the indulgence of such pleasures and amusements as wealth can bestow — He set out in early life in business for himself on a large and beautiful plantation, situated on the Schuylkill in Pennsylvania, which was given him by his father.

It appears that he sold this plantation after having possessed it a few years; that he engaged in many commercial adventures, all of which proved unprofitable, and that for a period of nearly twenty years his life was a succession of unsuccessful, to his himself [illegible]

[illegible] to America? Yes I do this that the Mayflower resulted? No, sir, to such purpose! This sir, was the object of the grand voyage of Evans and the annexation of the space of the war to the Rio Grande, which by [illegible] Mexico The President in his message to Congress of at its late session, always [illegible] this war was the act of Mexico It has been the only pleasure of the President to [illegible] part of its territory, and he will listen to nothing else But this such thing

Sir the sending of an armed force in the very utmost boundary of its claimed territory was the immediate cause of the war All this, sir, is known to the President, he was minutely and positive, in his answers to that effect in his message to Congress

He says, in his inaugural address I heard him when he delivered his inaugural, standing on that the springs of that station, reminding the people that our title to Oregon was clear and unquestionable And how very young a man he was I heard him tell the people, and no, I expected every moment to hear him say, you would scarce expect one of my age to speak in public, on the stage — But, sir, he did not so say that, although he was found in a questionable spot of our title to Oregon up to 54 40 and he maintained it most strenuously His friends keptup the cry, and shouted out one loyal cheer on for, as he advocated for title up to 54 40, to [illegible] that I see? Did 10 solid troops there to maintain our title? — No, sir, because he knew that would be a cause of war, and this Great Republic would consider it as such

I now turn sir, to the consideration of the papers and close secrets which have been printed I will read first the letter of the President to the General Herrera, informing him that he had sent Mr Slidell to Mexico This letter, sir, was before us here I will not it [illegible] This letter was then read by Mr. H [illegible] ness to be remembered [illegible] keeping You [illegible] E. Polk." [illegible] present [illegible] Secretary, he continues [illegible] to God and his be-

[illegible] ly keeping; but sir how that God should not hear the prayer [illegible] Grandsons keep him from [illegible] Text when heretofore tempted mortals [illegible] Taylor to the Rio Grande, Which [illegible] Sabbath

Sir, if I had the Mexican War before twelve men, good and true, the first witness I would call would be the President of the U States for no witness having faith in his story, would repeat it over unprecedently fourteen times — The obstinacy in asserting that "the war was by the act of Mexico," is strange and to my mind, shows that there must be some doubt of its truth at home, but the President in his message of the present year calls upon Congress to vote him men and money to and him in carrying out a war, which he now says Congress had declared to have begun by 'the act of Mexico' But I have been informed that many Senators voted against it under a protest The news had reached us of the actual position of Gen Taylor, and we were induced to send him aid to extricate him

The war was forgotten; all the consequences were lost sight of; Congress listened only to the calls of human sympathy, and they voted men and money for that purpose only They never meant, sir, that Mexico should be conquered The President in his message this year, tells us and that his object is to conquer a part of Mexico but has he had no agent out of pocket relating it to a complete conquest of that country? But we can put no faith in this assertion He says he object is to "secure a peace," and in carrying on the conquest of a peace, he requires immediately, a part of the territory of the nation He says of an increase of the army to aid him in this, and the next year he will tell us that we have voted him it to and means to carry on the war, and will ask you for what purpose He will tell you that you gave him an army to go to Mexico, not to stand with loaded arms, and perform sentry duty, but you must know that they should lay waste that country, burn her cities, ravish and despoil her towns and villages every place that the army treads, and I write [illegible] name on the block of her slaughtered inhabitants

This is what the President will say next year when, perhaps, you will call upon him for the peace In our schools all the east, we had a practice of requiring that boys should not only spell words, but that they also should give their definitions The Hon Senator from Kentucky, (Mr Crittenden) a few days ago, said he preferred volunteers to regulars I, sir, oppose both I will vote against an increase of the army in any way If there be any force not included in the [illegible] regulars or volunteers, then I will vote against that force I will lend no aid to the further prosecution of this war I think I can see an object in view, in having regulars, instead of volunteers, at last to make war upon the [illegible] dollar men of New England The President wants a war tax upon the tea and coffee and if the Senator from Kentucky will only look a little further through his glasses, he will see it too Sir, what will be the result of this war? No one can tell The Press dont want for a peace; but will be obtained by means of this war?

It appears to me sir, that perhaps the President wishes to deal with Mexico as Aberdeen did with Texas, in regard to the Oregon Territory That is likely What he does want The President, sir, is very brave when we have a weak and disabled foe, but, sir, when we were in danger with a war with England, he was very meek Unfortunately he did not get the blessing which the holy word promises the meek for they shall inherit the earth He was meek, but lost the land The President, sir, did not on that occasion, display his patriotism and courage, which is now so evident He has [illegible] and he is got, but I think I had read of—

"That stormy joy which warriors feel,
In foem in words or deed"

Why, sir, on that occasion, the President, after negotiating the country by his declarations of title to the whole of Oregon, backed out at a time when the bold stand, and left the matter to the Senate, and, that, too, after refusing an offer of arbitration, upon the ground that to [illegible] admitted a doubt of our title] I refer to this subject to [illegible] Lyceum [illegible] was a part of [illegible] many at the east We had got it for 54 40, and, as I have said, on the ardor of our patriotism we had got over the [illegible] and were ready to go for 54 40 But the letter of the President to Mr Packenham, intimating him of the determination of the President [illegible] the resolution of the Senate, came upon us like a thunderbolt I listened to a speech of the Hon Senator from South Carolina [Mr Calhoun,] with great pleasure, and, I have, with profit too But though a man is a statesman, more highly than I do he is wrong and the ability and statesmanship, I can see nothing in the resolutions

I would like to see them passed however, but I must confess I cannot believe that any ability in them Take it my good friend, amount to nothing I think the Senate for the patience with which they have listened to me I rose to perform my duty It has been charged, that all who opposed the war were acting in opposition to our country I rose to give expression to my views This charge reminds me of remarks of a western man, who said I went against the last war and it made the opposition, now I would go for this war and for all wars, yes even for war pestilence and famine" The war is the cry with some Why should Senators, who are opposed to this war lend their aid to it? Is it for popularity? I have not, sir We are writing the history of our times We are placing upon record the footsteps of our course, from time to eternity

Whither do they lead, and where will they lead us? Shall those who are to come after us [illegible] who are to fill our places—are they I say to find them pointing to liberty and happiness or shall they find them but monuments of guilt, pointing to the paths leading to perfidy and sin? These are questions which are full of meaning at the present day Ask the history of nations who have been swallowed up in the waters of ruin whether they did not weep what they sowed? It seems to me that there is a bright light coming down upon us from the history of ages, and that the lesson teaches and the truth it expresses, are contained in the word retribution If we escape from the evils which have fallen upon all nations, that have been engaged in slavery and war then we will be an exception, and it will be the first

I would ask those who are now wearing history to turn back to the day when was sung the song of jubilee—when the first dawn of the advent of our God and a Saviour broke upon the gaze of man and let them tell us whether any nation that ever delivered and war ever reaped anything but ruin and shame. Shall we, sir, find peace and prosperity in following that course, wherein all other nations have been ruined? No sir, but they will find in the history of the past, and it will be seen to be for distant future this year's truth that what ever the nations shall sow the same shall they reap Again I thank the Senate for their attention, and will not trespass further upon their time But I have a word to say in a matter, personal to myself I may be charged, with inattention, I wish to show, that if it be so I have authority for my course, democratic authority in New York

We have but two organs of the democratic party, and it was questioned which played the best game They were both partisans, and for some time differed, but in length they were united They had an annexation at the two papers From their paper I will read an extract which says, "That the democrats of the free States are the men most favorable to freedom and the abolition of slavery" This, sir, is New York democracy about twelve months old I can assure the Senate that I have no disposition to be here, in this body, as an Ishmaelite, with my hand against every body and every body's hand against me I have but simply expressed my convictions and objections I have said but to the best [illegible] offensive to any Senator, I assure him, from the bottom of my heart, that he took course was intended

The ayes and nays were ordered on the passage of the bill while

Mr Johnson, of Maryland moved that the Senate adjourn, with a view to reply to Mr Hale; but, at the suggestion of Mr Cass, withdrew it, for the purpose of giving him an explanatory session; when after a short time spent thereon, the Senate adjourned over to Monday

A good one is describing the absurdity of a man thinking the Poles, appropriately said that he supposed as if the ability to find a hole in his pocket and the ability endeavoring to shake a shilling down the leg of his trousers

# BY THE LAST MAIL.

Steamship G P Sumer, Capt Stafford, arrived here this morning, from Liverpool, Dec 30th, with mails and passengers A Cunard steamer, supposed to be the Hibernia, was spoken by the Sumer, on the 29th inst, off the Skerwirth, one mile east of White Head, signal of distress flying in four rigging Wind blowing fresh from W N W and heavy sea running The Sumer went along side, found her sails split, and crew badly frost bitten Took her in tow, and put into Sea Harbor

The timely relief furnished to this vessel, shows how important it is for our government to have a steam Cutter stationed on this coast, especially during the winter months Had it not been for the accidental assistance furnished in the suffering crew of this vessel by Capt Sanford the whole must have perished —Portland Eastern Tuesday Evening

A severe gale from the South was experienced here yesterday morning, accompanied with an unusually high tide At 9 o'clock, A M, several of the wharves were overflowed the water standing more than three feet above high water mark At Fairhaven the wharves were flooded, and probably considerable damage sustained The effects of the gale must have been severe along the coast throughout the extent of Cape Cod Capt Brown, of sch Augusta, from Boston, arrived here yesterday, reports a large fleet of vessels bound eastward over Nantucket Shoals at 5 P M on Saturday —New Bedford Mercury 10th

### Money Matters.

The New York Journal of Commerce of Monday in speaking of the money market says

"The Banks and Merchants are looking with increased interest to the expenditures of the Government The state of the country is such, that if the Mexican war is to keep up its large drains people at home will preserve the contracted position which they have been gaining for two to three months past These facts in the city will be likely to reach the country in low prices for produce so compelling a present payment of the expense of the war, by the very process of making a debt upon posterity

WASHINGTON Jan 6th

One of the prominent topics of conversation here is the rumored recall of Generals Scott Worth and Pillow, and Col Duncan, from Mexico and the appointment of General Taylor as commander in chief The thing is in agitation in the Cabinet—that much is certain —Cor. N Y. Com Adv.

Consumption —Much valuable time has been lost in discussing about the contagion or non-contagion of Cholera, Yellow Fever, &c. This disparity of opinion has arisen from ignorance of the true or only cause of disease, which is known to be corrupt humors. A person whose blood is pure may enter the *pest house* unharmed—while he whose blood is corrupt will sustain the contagion in the street.—In order therefore, to be secure from Cholera, Yellow Fever or any other supposed contagious disease you must keep the blood and other fluids in a state of purity This can be done in the most efficient manner by *Wright's Indian Vegetable Pills*, of the North American College of Health, because they completely cleanse the stomach and bowels from all bilious humours and other impurities, and thereby every description of poison from the body

Indian Vegetable Pills also a timid imparted digestion, and thereby not only furnish perfect security to any contagion probably, but give new life and vigor to the whole frame

Beware of Counterfeits of all Kinds! Some are coated with sugar others are made to resemble in outward appearance the original medicine The safest course is to purchase from the regular agents only, one or more of whom may be found in every village and town in the State

CONSUMPTION, COUGH, SPITTING OF BLOOD, BRONCHITIS, ASTHMA, &c

To Consumptives —Four fifths of you are really suffering from neglected colds, or an obstruction and consequent inflammation of the delicate lining of those tubes through which the air we breath is attributed to the lungs This obstruction produces pain and a serious hoarseness, rough dullness of breathing, acute fever and vomiting of blood, matter or phlegm, which finally exhausts the strength of the patient and death comes — JAYNE'S EXPECTORANT NEVER FAILS to remove this obstruction and produces the most pleasing results It relieves in the office, and cannot fail to relieve

### Important Letter from North Carolina.

Fayetteville NC. March 9, 1847

Dr Seth W Fowle—Dear Sir For two years past I have been more or less troubled with a cough During the past year I was taken with a severe pain in the left side accompanied by a very bad cough and a loosing of blood, probably a quart or more In addition to this I sweated profusely at night which induced me to apply to a physician, but received no permanent benefit I then procured a bottle of Wistar's Balsam of Wild Cherry, which seemed to have the desired effect. I continued to use it and my appetite which had been very poor, returned and with it my strength was restored. After taking four bottles I was completely cured, and have enjoyed good health since.

DAVID R BELL.

The old fogy of the North Carolinian above, strongly urged to "publish quick medicines," but believing that Wistar's Balsam of Wild Cherry ought to be cleared with that no 1 cheerfully testifies to his knowledge of the truth of Dr Ball's statement in regard to the efficacy of the Balsam.

The most extensive and well ESTABLISHED remedy for Colds, Coughs, Asthma, or any form of PULMONARY CONSUMPTION, is the HUNGARIAN BALSAM OF LIFE, first introduced by Buchan, of London, England, and used for upwards of seven years in Great Britain and on the Continent of Europe, and introduced into the United States under the immediate superintendence of the inventor.

The astonishing success of this Hungarian Balsam in the cure of every form of CONSUMPTION warrants the American Agent in submitting for the attention of WORST TO-THREE CASES that can be found in the community, upon the most reliable evidence in support of the common assertion of the day, and have been given out by the most distinguished Physicians as confirmed and INCURABLE. For this, certain Balsam has cured all the above named diseases in THIS CLIMATE. In so exact manner has it operated in Medication, of known and unknown characters.

*TO THE CONSUMPTIVE!*

Every family in the United States should be supplied with Buchan's Hungarian Balsam of Life, to counteract the consumptive tendencies of the climate, but to be used as a *precautionary* measure in all cases of colds, coughs, spitting of blood, pain in the side and chest, irritation and soreness of the throat, bronchitis, difficulty of breathing, hoarseness, night sweats, consumption and general debility, asthma, influenza, hooping cough, and croup.

In cases of actual disease of the lungs, or seated Consumption, it is the ONLY SOURCE OF HOPE.

## Dr. Spring's Vegetable Universal Renovator

## OR THE PILLS.

### A Cure for Life Secured!

*For the cure of colds, inflammation of the Liver and System, Inflammation, Soreness and Stoppage of the Stomach, Sick, Bilious and Nervous Headaches, Inflammatory and Mercurial Rheumatism, Dropsy, Jaundice, Dyspepsia or Indigestion, Piles, Worms, Female Complaints, Fevers, Fever and Ague, and for Purifying the Blood, Strengthening the System, and Restoring Health and Vigor to the Body.*

THE VEGETABLE PILL ELECTUARY.

Invented by Dr. As Upham, a distinguished Physician of New York city, is the only really successful remedy for that complicated and distressing complaint, the Piles, ever offered to the American public.

Mark this! it is an INTERNAL REMEDY—and on general principles, and of itself unto any cure of Piles, either by feeling or chart, humored or externally and probably the only thing that will. There is no mistake about it; it is a positive Cure—*speedy and permanent!* It is also a comparison of marijuana to take, and improves the general health in a remarkable manner.

Each box contains twelve doses, at $1-3 per dose. It is very mild in its operation, and may be taken in case of all the most delicate situation with safety.—*Advice*—All extensive applications are in the highest degree agreeable, inconspicuous and inoffensive, and from the very nature of the disease, is temporary in their effect. This Medicine unites the diseases at once, and, RENOVATING THE CAUSE, renders the cure CERTAIN and PERMANENT.

*INTERNAL REMEDY FOR DISEASES.*

Although the ELECTUARY was originally prepared for the cure of Piles, yet it has proved itself a wonderful for superior to all others, in all diseases of an inflammatory character, such as dyspepsia, inflammation of the Liver, Bowels, Kidneys and Stomach, Sick Headache, Fevers and Fever and Ague, Dropsy, Jaundice, Rheumatism, Female Complaints, Worms, &c. &c. In fact, in all cases where the blood is impure, or where there is a disordered state of the system, this valuable remedy will be found to be a most powerful and effectual remedy.

*IMPURITIES OF THE BLOOD*

For all impurities of the Blood, arising from the imprudent use of Mercury, or other causes, for all diseases of the bones, and Scrofulous Affections, or all cases where the blood is unhealthy, developed in the head, producing, diseases and disfigurements, it is unequalled.

*TO MARRIED LADIES*

Married Ladies are more especially subject to that painful and unpleasant disease, the Piles, with consequent inflammation of the Stomach, Bilious and Spinal weakness of the back, from or about to the head, &c. The Electuary is peculiarly safe for pregnant females, and the most useful Cathartic that can possibly be used, as it will not only remove the Piles and all its Bilious attendances, WHITE OUT PAIN or RESTRICTION, but will relieve in a very short time, the sufferers, and a sure preservation in the spring.

*CURE FOR LIFE GUARANTEED.*

The following are some of the VEGETABLE Medicines: no Alcohol, thimerosal, Sanguay, or other powerful and irritating purgatives. No fear or taking cold while under the influence, no change in diet necessary. If internally according to the directions; A CURE FOR LIFE IS GUARANTEED.

Pamphlets giving valuable information respecting the disease, may be had of Agents, and at

*GREAT SUCCESS OF UPHAM'S*

### PILE ELECTUARY.

Portland Me., March 14, 1847.

Dr. Upham—My brother-in-law has used your Electuary for the Piles, and says it has done him more good than I have experienced in the use of many valuable Pile Remedies. I have been a great sufferer for the preceding three or four years, so much so that I do not expect to live long. I have used a great many remedies, and general derangement in the stomach, organs, &c. My stomach will not retain food, and at the suggestion of my friends I have purchased a box of your Electuary, and am happy to say that I was much relieved after taking the first dose, and am now using the second box, and expect to use eight. I am sure I shall be entirely cured. I cannot say too much in favor of your Electuary. I am now restored to health, and am able to support myself and family, depending on no one.

You can make better use of this please,

Yours respectfully, SAMUEL CHARLTON.

## TO THE PUBLIC.

IT is well known that there is secreted in the stomach a fluid which is called Gastric Juice; that the food when taken into the stomach is acted upon by this Gastric Juice, which is now converted into a pulpy substance called Chyme; this passes into the upper portion of the bowels and canal, where it becomes mixed with Bile and Pancreatic Juice, and in by special act meet termed Chyle, a portion of which is the solid state tone, and is taken up by small vessels called lacteals, carried into the system, and converted into Blood. The food after being so changed, becomes assimilated, gets nourishment, and supplies the waste of the body; this is the process and effect of digestion.

How important therefore, that the digestive organs perform their functions properly! There are also, innumerable impurities existing between the Dyspeptic Stomach and distant parts of the body, some of the effects of which are here given—Sick Head ache, Heart burn, Consumption, Asthma, Phthisic, Spitting of Blood, Wheezing, Cough, and all Pulmonary Affections and diseases of the Lungs, as has, and can be satisfactorily proved from the testimony of the most respectable persons in this and other States, who are entitled to the most unquestionable belief. After having tried the many new preparations, without finding the expected relief multitudes are compelled to resort to the use of the VEGETABLE PULMONARY BALSAM, which they acknowledge to be after all, the best remedy known, for the above complaints.

☞ Beware of Counterfeits and Imitations; such as *Carter's Compound Pulmonary Balsam, Wistar's Balsam, Pulmonary Balsam* and others in part bearing the name of Balsam, or Expectorant in the wholesome, the

## *Highly Important to Farmers.*

HAVING purchased the right to the BOMBERS Method of making MANURE in all the towns in the County, not previously disposed of, west of Penobscot, and south of Piscataquis rivers, I am ready to sell the same, in towns or individual rights, to the best cost purchasers.

When it is taken into consideration, that one ton of dry straw can, in the space of 12 days, be converted into from six to eight hundred inch unctuous manure fit for *cash-sales*—that crops *vegetables* and fruit, can be made into manure for equal value, in ten days—and that the high temperature produced by fermentation destroys all obnoxious seeds, this invaluable method may be fairly considered as forming a new era in Agriculture! That the foregoing results have been frequently realized by Bomber's process, I am prepared to show by testimony from scientific and practical farmers in various sections of the country.

Single rights will be sold for the moderate price of four dollars, and the purchaser will be furnished (gratuitously) with a book describing the process of making the foregoing, together with many other kinds of compost manures, hitherto unknown in this part of the country. To those who purchase by towns, or of private companies, my terms will be as low as in any other section of the State.

Persons at a distance who forwarding four dollars (post paid), will be promptly furnished with a single right and book as aforesaid.

This universally approved and *admired* article, free from ardent spirits, pungent essential oil and other destructive chemicals, eradicates the hair effectually, renders it beautifully bright, and imparts to it the delicate fragrance of the flowers. Dr. Townsend—I have used one bottle of your Sarsaparilla, and I find it a most efficacious agent for broiling, boiling, toasting, &c. in my palate. The grate clears itself, exchanges the ashes into the ash-pit. The flues are large, and so arranged as not to fill up with ashes. ## Dr. Townsend's SARSAPARILLA,

THE MOST EXTRAORDINARY MEDICINE IN THE WORLD.

This extract is put up in quart bottles; it is six times cheaper, stronger, and warranted superior to any sold. It cures disease without vomiting, purging, sickening or debilitating the patient.

The great honesty and superiority of this Sarsaparilla over all other medicines is, while it eradicates diseases it invigorates the body. It is one of the best Fall and Winter medicines ever known; it not only purifies the whole system and strengthens the person, but it creates a pure and rich blood, a power possessed by no other medicines. And in this lies the grand secret of its wonderful success. It has performed within the past two years, more than 35,000 cures of severe cases of diseases; at least 20,000 of these were considered incurable.

More than 3000 cases of Chronic Rheumatism,
2000 cases of Dyspepsia,
2000 cases of General Debility and Want of Energy,
2000 cases of the different Female Complaints,
2000 cases of Scrofula,
1500 cases of the Liver Complaint,
1500 cases of Diseases of the Kidneys and Dropsy
3000 cases of Consumption;

and thousands of cases of diseases of the blood, viz.—Ulcers, erysipelas, saltheum, pimples on the face, &c., together with a great number of cases of headache, pain in the sides and chest, spinal affections, &c. &c.

This, we are aware, must appear incredible, but we have letters from physicians and agents from all parts of the United States, informing us of extraordinary cures. R. Van Buskirk, Esq., one of the most respectable druggists in Newark, N. J., informs us that he can refer to more than 150 cases in the place alone. There are thousands of cases in the City of New York which we will refer to with pleasure, and to men of character. It is the best medicine for the prevention of a disease known. It undoubtedly saved the lives of many thou

15,000 CHILDREN, THE PAST SEASON,

as it removed the cause of disease, and prepared them for the summer season. It has never been known to injure in the least the most delicate child.

*RHEUMATISM,*

This Sarsaparilla is said to be the most powerful cure in Rheumatic complaints, however severe or chronic. The astonishing cures it has performed are indeed wonderful. Other remedies sometimes give temporary relief; this entirely eradicates it from the system, even when the limbs and bones are literally in swollen.

HOUSE-KEEPERS should be sure and examine this superior Stove, which is the most desirable article ever offered to the American people.

*ECONOMY.*

It has more real and useful improvements than all others combined. The Soapstone Top has proved to be of great value in producing an even steam and causing the bread to rise and bake perfectly equal to the brick oven! The Brick is found to be more durable than the stone top. It is so quick as the heat around the oven, and with the above two ovens bake is produced in much shorter time than all other stoves known. It has a great convenience of arrangement for roasting in front. The Superior Arrangement for broiling, boiling, toasting, &c., is complete. The grate clears itself, exchanges the ashes into the ash-pit. The flues are large, and so arranged as not to fill up with ashes. It is impossible to see how small an amount of fuel it requires to perform so great a variety of cooking. ## Whitney's ALL-HEALING Ointment,

FOR THE CURE OF

Colds, coughs, consumptions for scrofula, scurvy, and all cutaneous eruptions, tetter, bunnies, burns, ulcers, sores of all kinds, and general debility.

This celebrated Ointment has a most striking effect upon the blood in cleansing it from all impurities upon the smallest and finest vessels, and thus removes malignant sores and pains, upon the lymphatic ganglia or glands, promoting the free and healthy secretion of the lymphatic fluid, and thus removes swelling of the glands about the neck, the groins, the axilla or under the arm, about the ear, and in all other parts of the body.

This All Healing Ointment is equally effectious in promoting the secretions of the kidneys, relieving from retention of urine; and by restoring the tone and function of the urinary organs, thus preventing incontinence of urine. It is equally efficacious in acting upon the nervous system by curing neuralgia, St Vitus's dance, palsy, paralysis, numbness or want of feeling or power of motion from some local or general affection of the nervous tissue. It acts with great power on all the fluids and solids of the body, and attacks disease in whatever part located, whether on the surface or internal organs.

We speak the things which we know of the astounding efficacy of this justly celebrated invaluable and worthily named "ALL-HEALING OINTMENT." The innumerable point that have been answered, the numerous sufferers relieved and cured and the more than ten thousand cases which have been cured and incurred by its salubrious efficacy, testifying to the truth of all, and more than all, here enumerated.
